Dear Ms. Jensen:

This is a request to extend the variance for the Pleasure Island's New Year's Eve Celebration - West End Stage laser light show. The variance number and accession numbers are as follows:

Variance Number 94V-0074  
Accession Number 94A0 114-02

This installation has been inoperative for the last year due to changes in the show located at the West End Stage and it was my intention to let the variance expire. New creative direction has been given and as a result, we intend to reactivate the existing laser projection system with no changes in the established variance, projector or light show report. Accordingly, I would like to request the variance extended for the maximum period allowed.

As always, if you should have any questions, please don't hesitate to contact me at (407) 938-2447.

Sincerely,

Tony Zmurenski, CSP  
Senior Safety Administrator  
Laser Safety Officer
